THE DANGERS OF GAS.

Explosions of Both the Natural and the Artificial Article.

RESULT OF A BOY'S CURIOSITY.

The Careless Use of Firearms Causes Several Casualties.

ALL THE NEWS FROM NEARBY TOWNS

PETECIAL TELEGRAM TO THE DISPATCH. 1 WAYNESBURG, November 13 .- A natural gas explosion at Mt. Morris seriously in-

jured a number of boys. The little fellows had rigged up an old feed cutter and placed it in an abandoned building. Natural gas was brought through a pipe from a well near by, the pipe being placed so that the escaping gas would strike a fan wheel and put the cutter in motion.

Four boys named Donly, Fox, South and Burris visited the building in the evening to see how the thing worked. The gas was turned on, and one of the boys, whose curiosity was not satisfied, struck a match to closer inspect the new invention. In an instant there was a flash and explosion. The feed cutter was blown to pieces and the building fired. The flames spread so quickly that the boys had to make their way through the fire to escape. They were all terribly burned about their heads and faces, but it is thought none were fatally injured.

THREE SHOCKING ACCIDENTS

Resulting From the Worse Than Careless Handling of Londed Wenpons. SPECIAL TRLEGRAM TO THE DISPATCH.

NEWARK, O., November 18.-A shocking casualty occurred at Ontario, this county, today. Clarence Rodgers, aged 8 years, was carrying a gun to the house when his 4-year-old sister toddled out to meet him, In a playful mood he raised the gun and fired, the charge tearing off the left side of her face and killing her. The tragedy was inexcusable and has wrecked the father's mind.

A dispatch from Huntington, W. Va., says: While David Walker was attempting to unload a revolver last night a cartridge exploded, striking him in the breast near the heart, making a very serious wound.

ing a very serious would.

A telegram from Point Pleasant, W. Va., says: While examining a gun this afternoon after returning from a hunting expedition, Oscar Lee, a young man aged about 16 years, accidentally shot hunself through the head. Death was instantaneous. How the weapon was discharged is unknown.

THE OTHER KIND OF GAS.

An Artificial Generator Seriously Injures : Half Dozen Men.

PEPECIAL TELEGRAM TO THE DISPATCE.1 WHEELING, November 13.—About 3 o'clock this afternoon an artificial gas generator at the Ætna Rolling Mill, at Ætnaville, opposite this city, exploded. The generator was surrounded by eight or ten men at the time, and they were scattered right and left by the concussion, some of them being hurled a considercussion, some of them being huried a considerable distance. Five of the workmen, named B. Caldwell, manager; Thomas Johns, assistant manager; William Howell, engineer; Timothy Miner, foreman, and Charles Smith, a heater, were terribly burned about the face, arms and upper part of the body.

Miner's injuries may result fatally, as it is though the is also hurt internally. The men presented a sickening sight when assistance arrived. The mill property was not damaged.

Another New Manufacturing Town.

PRPECIAL TELEGRAM TO THE DISPATOR. GREENSBURG, November 13 .- The Avonmore Land and Improvement Company has purchased 854 acres of land in the "Loop," in Bell township, this county. A charter for the company has been applied for. The incorporators are Messrs. Schuyler, Patterson, Simms and Bright, of Philadelphia. The prin-cipal office of the company will be in that city. It is expected that a large locomotive works and a town will be built on the site. The land

A Man Who is Wanted at Rittsburg. PEPECIAL TELEGRAM TO THE DISPATCHA WHEELING, November 13 .- The Pittsburg Police Department has at last secured evidence against H. G. A. Stickford, who has been in the workhouse here for three weeks past, and an officer will come down for him to-morrow. Stickford is a confidence man of the most dangerous type, and has been held here on a charge of vagrancy until the Pittsburg officials could get evidence together.

The Sheriff Takes a Hand. ISPECIAL TELEGRAM TO THE DISPATCH.) Du Bois, November 13.-Deputy Sheriff Faust came over from the county seat this afternoon and closed the drygoods store of L. Shaffer, who also does business at Mahaffey, this county. Executions to the amount of \$5,000 have been issued against Mr. Shaffer. The sale of the Du Bois store will take place on Friday, the 22d inst.

TO INCREASE THEIR STOCK.

The Offices of the Frick Coke Companies to

be Moved This Week. The Secretary of the United Coke Company of this city has issued notice to the stockholders of the company for a special meeting to be held at the office of the company in the Lewis block Friday, January 15. The object of the meeting is to vote for or against investing the capital stock of the company. They will probably consolidate with the Central Connellsville Coke Com-

The two companies are now owned by H. C. Frick and McClure & Co. Before the sale of the Schoonmaker to the Frick Company, each one of the three companies named owned a one-third interest in the Central and United Companies. When J. M. Schoonmaker sold out to Frick, the latter became possessor of two-thirds of the stock in both companies. The McClure Company would not sell their interest, and some-thing will be done about it at the special

meeting.

The offices of the United and Central Connellisvile Company, which are now on the sixth floor of the Lewis building, will be moved about Monday next to the Hussey building on Fifth avenue, where the head-quarters of all the Frick concerns will be located. Mr. Friek will move his own offices this week to the new building. The books, furniture, clerks, etc., of the Schoon-maker, Moore and Southwestern Coke Companies, which were purchased by Frick, will also be moved about the same time.

POISON IN HIS CIDER,

A Hired Man, Who Blade Trouble in the Family, Gets a Fatal Desc.

SPECIAL TELEGRAN TO THE DISPATCH !. SARATOGA, November 13.-Ernest Jump, aged about 30 years, died suddenly in Dr. Ensign's office in Jonesville, this county, last evening under circumstances which would indicate that he was murdered. Jump had been working for a farmer by the name of Isaac Counter, who resides about half a mile from Jonesville. Last evening Counter drew some cider and poured out two glasses, handing one to Jump. They drank together, but Jump only drank a portion of his glass, remarking that it tasted bitter. Thereupon Counter took Jump's glass, tasted the cider, spit it out and threw out the balance. Jump, believing himself to have been poisoned, believing nimself to have been poisoned, started directly for Dr. Ensign's office, where he died about 20 minutes later.

In the glass from which the cider had been drunk the doctor found strychnine.

Counter is under arrest. It seems that he and his wife did not live happily together, and on one or two occasions have separated. He has made charges of infidelity against her, and declared that Jump was the cause of all his domestic trouble.

Threw the Watch Away. William Henderson, colored, of Sewickley, stole a watch from a countryman in Durr's saloon, Market street and Third avenue, yesterday atternoon. Officer Mike Malone arrested Henderson. On the way to the station house Henderson threw the watch under a fruit stand. His action was observed, and the watch recovered.

END OF THE TOUR.

The Pun-American Delegates Complete Their 6,000-Mile Excursion in 42 Days-The Results of the Trip

Will be Most Important. WASHINGTON, November 13 .- Just 42 days after the morning of October 3, when the special train bearing the international delegates pulled out of the Pennsylvania Railroad station in Washington, the same train, headed by the locomotive which had drawn it nearly 6,000 miles, rolled triumphantly into the Capital City and drew up at the station, having successfully completed the most interesting and, from a railroad standpoint, the most extensive trip ever undertaken by one train.

How the excursion has resulted in furthering the important objects which the American conference was called to attain, has been eloquently told by the delegates themselves throughout the medium of the newspapers. But it might be proper to add upon the authority of one of the United States delegates, who has accompanied the party over several of its thousands of miles of travel, that the effect upon our ewn people has been most beneficial, and that as a consequence of their association and exchange of ideas with the delegates, many of the merchants and business men in the different towns and cities where the tourists have been entertained and instructed, have had their attention seriously directed to the vast commercial possibilities of the nations lying south of the United States, while the people generally are awakened to the fact that we should feel the deepest interest in the welfare and prosperity of the sister Republics. It was planned that instead of taking the more direct southern route from Philadelphia to Washington, the train should run down by way of Harrisburg, so that the delegates might see the beautiful Susquehanna and the rich farming lands of that part of Pennsylvania. This plan was fol-lowed, but unfortunately the country was not seen at its best, as the lowering skies

GREEN TO WANAMAKER.

The President of the Western Union Attacks the Arguments of the Postmaster General-The Practice of Forcing Out Competition

NEW YORK, November 13 .- Dr. Norvin Green has made public a recent letter to Postmaster General Wanamaker regarding the Government telegraph rates. The following is a portion of the communication: The fact that the Mutual Union Telegraph Company, a small organization belonging to this company, did, for a time, meet the Baltimore and Ohio Telegraph Company in sending messages short distances, and between very few points, at 10 cents, is no evidence that no lo of money was involved. If those companies had made, as you propose, a rate of 10 cents between all points less than 400 miles distant from each other, the Baltimore and Ohio Telegraph sy tem would have been sold out by the Baltimor and Ohio Railroad Company as a bad invesment long before it was sold; and that ra would have reduced the earnings of the Wes ern Union Company below its actual expense in that important department of our busines Commodore Vanderbilt once met the attac

Commodore Vanderbilt once met the attack of a competing line of steamers by establishing a passenger rate of 10 cents between New York and Albany. Nobody supposed that it cents was a remunerative rate for so long a passage, but the move proved effective, because it enabled the Commodore to buy the competing line without paying a speculative price for it. Such a course is sometimes entailed by circumstances upon this company. Competing companies are often formed, not for business profits, but to force us to buy for business profits, but to force us to bu them out or to retire from the field. When them out or to retire from the held. Whe such competition occurs, it is a transient an isolated feature of our message business. To seize upon one such feature and, so far as you office as an umpire may control, to make that the basis of a rate to be charged on Govern ment business seems to us not judicial bu

The further course, you suggest of a board of arbitration is within what we have always prefered. We have stood ready always to supply to the incumbent of your office the fullest of portunity for search into the cost of telegraph c business, and to accept freely his impartial judgment. If you prefer to delegate that judg-ment to a board composed as you suggest, leaving the rates for this year to be governed by that result, we shall be glad to meet it.

THAT PARALLEL RAILROAD.

The Surveys Are Being Made for the New York, Ft. Wayne and Chicago.

VALPARAISO, IND., November 13 .- The surveying and engineering corps have passed here and will reach Chicago in a week in their survey of the New York, Ft. Wayne and Chicago Railroad. This line is to be a link in a railway system between New York and Chicago, and ultimately west of Chicago even as far as the Pacific coast, all really under one management, and to be styled the American Midland. The Chicago terminal will be over some belt road.

Between Chicago and Ft. Wayne this line will run north of the Pittsburg, Ft. Wayne and Chicago Railroad, touching all the chief towns that line does. The trunk line will run north of Pittsburg, with a branch line to that city, and continue through Pennsylvania between the main lines of the Erie and Pennsylvania systems. This line will be some 60 miles or more the shortest route between Chicago and New

CONSUMPTION

York. It will be finished next year.

IN its first stages, can be successfully checked by the prompt use of Ayer's Cherry Pectoral. Even in the later periods of that disease, the cough is wonderfully relieved by this medicine.

"I have used Ayer's Cherry Pectoral with the best effect in my practice. This wonderful preparation once saved my life. I had a constant cough, night sweats, was greatly reduced in flesh, and given up by my physician. One bottle and a half of the Pectoral cured me."—A. J. Eidson, M. D., Middleton, Tennessee.

Tennessee. "Several years ago I was severely ill. The doctors said I was in consumption, and that they could do nothing for me, but advised me, as a last resort, to try Ayer's Cherry Pectoral. After taking this medicine two or three months I was cured, and my health remains good to the present day."-James Birchard,

Darien, Conn. "Several years ago, on a passage home from California, by water, I contracted so severe a cold that for some days I was confined to my state-room, and a physician on board considered my life in danger. Happening to have a bottle of Ayer's Cherry Pectoral, I used it freely, and my lungs were soon restored to a healthy condition. Since then I have invariably recommended this prep-gration."—J. B. Chandler, Junction, Va.

Ayer's Cherry Pectoral,

Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price \$1; six bottles, \$5.

Obstinate Indigestion Obstinate cases of indigestion, constipation, piles or liver complaint, are easily cured by a few Hamburg figs as may be proved at small cost. 25 cents. Dose, one fig. Mack Drug Co.,

This is what is said about the elegantly carved lumber on exhibition at the Pan-American Exposition. Quite a number of people have gone there purposely to see it, and were more than pleased with it. There are few who believed such an achievement possible, but the work of the Goehring Geometrical Wood Carving Machine shows for itself. It is capable of cutting more than 2,000 different patterns, each equaling, if not surpassing, hand carving. It finishes the lumber about as fast as a first-class

planer turns out straight goods. The home company, which owns the fran-chise for Western Pennsylvania, Eastern Ohio and West Virginia, has been reorganized and is arranging for a large trade, as architects and builders, and the people generally pronounce it the best and most artistic house finish yet discovered. Capitalists are making inquiries about the stock, of which there is a small block for sale. The books are in the hands of Mr. Spangler, cashier of the Third National Bank, Alle gheny.

Sacrifice Sale of Planes and Organs at 137

Federal St., Allegheny, Pa. We must have room for the 100 Everet pianos now coming in, and will close out this week our entire stock of other makes of pianos, consisting of Weber, Chickering, Decker, Kranach & Bach, Shoemaker, Hallet & Davis, Knabe, Pease and others. NEW ADVERTISEMENTS.

"O monstrous! but one half-penny worth of bread to this intolerable

Lived a few hundred years later, and read the advertisements with which the newspapers are now so everlastingly flooded, he'd surely have made Prince Henry add: "O more monstrous still ! but one penny's worth of substance to this intolerable deal of gas!" It's a mistake to talk unless you've something worth talking about. It's a mistake to advertise unless you've something worth advertising. Many clothing firms seem to forget this. They seem to imagine that long-winded harangues anent their "TRUTHFULNESS" and their "ORIGINALITY" will cause people to swallow their "FAKE" stories, will satisfy the souls of a clothing-craving community. BUT THEY WON'T! Pittsburgers want substantiality, not verbosity. They are quick to detect the true from the false, and the sooner the "FAKE SALE" clothiers tumble to this fact the better it'l be for 'em.

All Styles! All Shapes! All Sizes! All Prices! All

Patterns! All Fabrics!

These are the most serviceable

and durable garments made for

winter wear. None should be with-

out one. Possession means comfort

and money saved from doctors and

druggists. We have them in plain

and fancy ribbed Chinchillas, plain

and check Cassimeres, Fur Beavers,

Irish Friezes, Diagonals, plain and

fancy Mixtures, etc., made up with
